2. Click Button "Add car"
3. Select Brand - Porsche, Model - 911
4. Enter correct Mileage
5. Click Add a car

**Expected result:**

1. Car added to garage.
2. Auto icon, Auto name, Field "Mileage value" displayed and matches with data you picked

**Actual Result:**

1. Car added to Garage
2. Auto icon and Auto name are from wrong car (Ford Focus)

### Bug report #3

#### (Instructions) When open instructions files shows instruction for wrong car

 Edit  Add comment Assign More  To Do In Progress Workflow 

 Details

Type:  Bug

Status:  (View Workflow)

Priority:  Medium

Resolution: Unresolved

Affects Version/s: V1

Fix Version/s: v2

Labels:  Bug

Severity: Minor

Epic Link: 

 Description

**Preconditions:**  
Registered user/guest login

**Steps to reproduce:**

1. Go to instructions tab
2. Click on any instruction

**Expected result:**

1. Chosen instruction is opened in new window and is available for download
2. Car in instruction matches with car in the instructions list

**Actual result:**

1. Chosen instructions opened and available to download
2. In instruction tab there're instructions for wrong car (Audi A4 for all car models instead of correct car)

### Bug report #4

#### (Instructions) Search shows wrong car in the instructions list
